

Removing rust from a railing before painting.

Abrasive Flap Discs for Angle Grinders

Vortec Pro® Coated Abrasive Flap Discs save both time and money! No need to switch from a Type 27 grinding wheel to a resin fiber disc because flap discs grind and finish in **one** step! This results in fewer changeovers and increased productivity.

Applications: Grinding and finishing metals in one step • Deburring and deflashing • Ideal for auto body repair, sharpening lawnmower blades, etc.

Display Pack

Vortec Pro® Flap Discs - Phenolic Backing - Angled Style (Type 29)

Provides a high cut rate. Ideal for a working angle of 15-25°.
