

Introduction

Weiler Vortec Pro... designed for the Professional/Contractor. A comprehensive line of heavy-duty grade Power Brushes, Abrasives and Maintenance Products, providing high performance and durability.

Weiler Vortec... designed for the Do-It-Yourselfer. A complete Power Brush, Abrasive and Polishing Accessories offering, providing reliable performance at a value price.

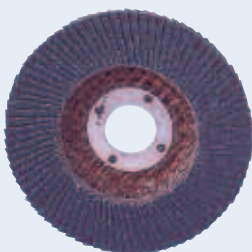

Quality-made

All products are made to Weiler's exact quality standards and specifications.

■ Power Brushes

- Exact Strand Count assures perfectly balanced brushing. Evenly distributed wires eliminate vibration, reduce operator fatigue and increase brush life.
- Solid-Ring Construction (Crimped Wire Products) locks each wire around a solid ring. It is significantly more durable than conventional wrap wire methods used by other brush manufacturers.
- Internal Holding Plate (Knot Wire Products) designed with evenly spaced holes prevents knotted wire tufts from shifting on the outer edge of the brush, providing a consistent brushing action.

■ Abrasives

All Abrasives are precision-manufactured to meet the needs of the professional consumer by providing value through superior durability and performance.

■ Maintenance

Using only quality materials, our Maintenance items are manufactured to provide long life and high performance to meet all cleaning needs.

■ Polishing Accessories

A comprehensive offering of Polishing Accessories, including buffing wheels, compounds and bonnets, quality-made and designed for general purpose polishing of metal, plastic, fiberglass, marble and wood.

Packaged To Sell

Products are UPC bar coded and packaged in attractive, four-color, highly visible packaging for dynamic visual impact.

■ Display Packaging

- Helpful End-User Information includes popular applications and safety/caution information.
- Power Tool Icon featured on each card to advise the end-user of the proper tool to use with each product.

■ Display Merchandise Available

A wide selection of plan-o-grams and displays, all designed to assist the end-user in choosing the right product for the application.

■ Product Also Available in Boxed Quantities
